

Another small 4.0.1 fix

18/02/2009 18:51 by mem

This fixes the Private Messages bug. Highly recommended.

Open <pages/pvtmsg/index.php>

Find `$dblink->query("DELETE FROM memht_pvtmsg WHERE id=$id");` on row ~838 and replace with `$dblink->query("DELETE FROM memht_pvtmsg WHERE id=".intval($id));`

Find `$dblink->query("DELETE FROM memht_pvtmsg WHERE id=$value");` on rows ~859 and ~864 and replace with `$dblink->query("DELETE FROM memht_pvtmsg WHERE id=".intval($value));`
