MemHT Portal 3.7.0

23/02/2008 21:57 by mem

Small but interesting news in this release: One level subforums, new pagination system, new MyLinks page (almost a web directory now), automatic bot detector in the security tracking page, html syntax cleaner that should make the MemHT Portal core almost completely HTML 4.01 Transitional valid and, at least, an enhancement of the unique visitors counter in statistics.
